PUNAHOU GLEE CLUB'S CONCERT

The annual concert of the Punahou glee clubs, which are somewhat unique of their kind in Honolulu, is to be given this week Saturday night in Charles R. Bishop Hall. The boys and girls' glee clubs have combined to present an unusually attractive program. They will be assisted by student soloists. From the Bridal Chorus to the Punahou Medley the audience will have both variety and quality of music. Prices are popular, and tickets may be had from any student at 50 cents for reserved seats. Miss Maybelle B. Sweet is musical director of the clubs. The program follows:

Part One.
Bridal Chorus—Cowan's Rose Maiden
Boys' and Girls' Glee Clubs.
Elegie.....Nollet
Hazel Buckland.
Nymph's Song—Neapolitan Air. Harmonized by Wm. Rees.
Girls' Glee Club.
Good Night, Little Girl, Good Night.....J. C. Macy
Boys' Glee Club.
Solo, Allan Renton.
Roses in June.....Edward German
Marguerite Wadman.
Violin obligato, Doris Taylor.
Curriculum.....Glen Woods
Boys' Glee Club.
Part Two.
Pilgrims' Chorus.....Richard Wagner
Boys' and Girls' Glee Club.
Brautgesang Notturme.....Jensen
Ar. for two pianos by Ludwig.
Glenn McCracken, Lyle Holmes.
Two Grenadiers.....Robert Schumann
Allan Renton.
Rockaby Lady from Hushaby Street
.....Frederick Chapman
Marguerite Wadman, Thelma Murphy,
Glenn McCracken, Ruth Soper.
Carmena.....H. Lane Wilson
Girls' Glee Club.
Punahou Medley.....Ar. Andrew Poeppoe
Boys' Glee Club.

ELECTRIC CAR

(Continued From Page Nine)

enced from vibration; on the contrary, the ease and smooth movement in the starting and stopping of the vehicle were the subjects of special remark. Improvement of the springs is planned, which will still further promote the comfortable running of the car.

It is anticipated, reports the committee, that, notwithstanding the narrow limits of the Bradford system, 13 cents per car mile may be obtained from the route now open, and that the cost of operation should not exceed 11 cents per car mile. (The actual cost of working is about 9 cents per car mile.)

Report on Leeds System.

The same committee visited Leeds in October 1911, and reported that the surface of the road over which the cars run is paved partly with wood and partly with granite within the city, while in the outskirts it is of ordinary macadam formation. No evidence of extraordinary wear was noticed. The report states that the car passed by the side of the other traffic on the road and between vehicles. It also passed trams going in the same direction with the utmost ease and freedom. At the request of the committee the driver diverted the car from one side of the road to the other by frequent turning motions, and although these turnings necessitated sudden movements of the trolley arms from side to side at their extreme length, they showed no sign of leaving the wire. A lateral deviation of 15 feet from the center of the roadway to either side was shown to be easily obtained. Passengers getting on or off the car were able to do so at the curb without incurring risk from the general traffic of the roadway.

The committee reported that the actual revenue per car mile in Leeds was 17.56 cents and the operating costs are estimated at 11 cents per car mile (exclusive of interest and redemption of capital), so that a considerable profit is anticipated.

POWER OF A NAME

(Continued from Page Nine)

and silk did he hear any comment of his American clothes.

He stood with his wife on a carpet of gold and purple within one hundred feet of King George when the latter, from the throne, made his speech to the Indian maharajas.

After the Durbar, when Mr. Bryan was ready to pay for his train and tent accommodations, he was informed that the American gentleman with a letter from the President of the United States had no bill to pay. Moreover, he was told that a special train was at his disposal to return to Calcutta.

"I saw the Durbar under splendid circumstances," said Mr. Bryan yesterday.

day, "and all it cost me was the price of my telegram to the secretary."

Later Mr. and Mrs. Bryan left Calcutta for a trip in the north of India. Train-robbers were numerous in a section between Calcutta and Darjiling, and three days before the Bryans went north a woman had been robbed and murdered in a train-compartment.

At midnight, when the train was passing through the suspicious territory, a bandit flashed a light in the face of Mrs. Bryan and tried to get her jewel-case. She screamed and called to her husband, who grappled with the bandit and threw him from the train.

PUNAHOU PAGEANT

The Punahou Letter: A boy or girl never misses the opportunity of celebrating a birthday and few events does youth enjoy more—excepting perhaps holidays.

Bearing this in mind, it seemed that the boys and girls of the Preparatory School could give a day of enjoyment to the alumni, trustees, parents and other friends of the school and have a happy day themselves in celebrating this anniversary year. Thirty years ago the Preparatory School was started at the Armstrong home on Beretania street; ten years ago it moved into Charles R. Bishop Hall on Oahu College campus, and this year marks the beginning of the Primary Department in the new annex.

First of all the boys and girls learned from chapel talks early in the year something of the splendid history of Oahu College and of the minor part played in it by the Preparatory School. Then a plan was evolved of having this year an anniversary celebration that would go hand in hand with the regular work of the school and that would give every boy and girl a part either in preparation or execution.

The plan is to present a series of historical representations—an historical pageant—that will show, as far as is possible within the limited capabilities of boys and girls, the development of civilization. Each grade will have a unit in the series which will, in general, conform with the history studied in that grade. Although based fundamentally on the study of history, it has been found possible to have the work branch out into a large share of the subjects of the curriculum.

The pageant will be given on Oahu College campus in front of Charles R. Bishop Hall on May Day, beginning at 9:30 in the morning.

The tiny tots of the first grade will tell about Primitive Civilization, rehearsing the deeds of the Tree Dwellers and the Cave Dwellers and showing primitive life in the Far North among the Eskimos.

Vivacious second graders, who are reading Hiawatha, will represent the North American Indians in old-time civilization and will appear as Indian braves and squaws with wigwam, bows and arrows.

Then Grecian youth of the third grade will present the story of Theseus and Ariadne and the slaying of the Minotaur of the Cretan Labyrinth. Roman warriors, clad in armor of their own fashioning, will next show the return of Coriolanus for the fourth grade.

Peter, the Hermit, of the Middle Ages, will rouse the Crusaders to save the Holy Sepulcher and Richard the Lion-Hearted and other leaders on horse and foot will be in the fifth grade's Crusaders' procession.

Merrill England's May Day festivities will be the part of the sixth grade. After the crowning of the May Queen, the merry makers will dance around the May pole. A minstrel band, organized among the Preparatory boys, will furnish the music for the dancing.

Columbus then will land on America's soil and will be received with rejoicing on his return to the throne of the King and Queen of Spain. With these seventh grade tableaux will be shown a bit of early life in the Colonies in the days of Rip Van Winkle.

Ten will be served by George and Martha Washington to guests, who will dance the Colonial Minuet to the accompaniment of the fiddlers' playing.

Then Miss Columbia of the United States of America will invite to her party all the states and territories of the Union, and they will come laden with their gifts. And not only these but all nations will gather around her and all together will join in a carnival of song.

In conclusion the civilizations of all ages will pass by in review and the span from the miniature cave-dweller to the newest territory of our Union may be seen in the concluding pageant, which will include practically every boy and girl in the Preparatory School.

REASONS FOR THE NIGHT LIFE.

A baby was born every three minutes in Greater New York last year. No wonder New York people stay up nights.—Omaha World-Herald.

WEEKLY WEATHER BULLETIN.

For the week ending April 13, 1912.
Honolulu, T. H., April 15, 1912.

General Summary.

The rainfall was above the average for the week at all stations having a record of ten or more years in the Makawao district of Maui, the Koolaula and higher-level Honolulu districts of Oahu, Koloa of Kauai, and the North Kohala, Hamakua, North Hilo, South Hilo and North Kona districts of Hawaii; and below the weekly average in the Kau district of Hawaii, Kilauea district of Kauai, Molokai, Waikuku and Lahaina of Maui, and the Koolau, lower-level Honolulu, Ewa, Waianae and Waialua districts of Oahu.

The following are the total amounts of rainfall, in inches, in the different districts of the several Islands: Hawaii—North Kohala 1.71 to 2.98, Hamakua 5.59, North Hilo 4.83, South Hilo 5.09 to 12.63, Puna 5.57, Kau 0.09 to 0.21, and North Kohala 3.45; Maui—Makawao 2.35 to 4.21, Hana 1.35, Waikuku 0.00 to 0.44, and Lahaina 0.13; Oahu—Koolaula 0.55, Koolau 0.23 to 0.89, Honolulu 0.19 to 3.23, Ewa trace, Waianae 0.02, and Waialua 0.15; Kauai—Hanalei 1.90 to 2.55, Kau—0.34 to 0.62, and North Kona 2.40; Maui—Makawao 0.87, Waikuku 0.11 to 0.15,

and Lahaina 0.11; Oahu—Koolaula 0.09, Koolau 0.28 to 0.55, Honolulu 0.44 to 0.33, Ewa 0.19, Waianae 0.12 and Waialua 0.09; Kauai—Hanalei 0.24, and Koloa 0.56; and Molokai—Molokai 0.58. The mean temperatures were 1.1 deg. to 1.9 deg. higher than last week's in the Makawao, Waikuku and Lahaina districts of Maui, the Waianae district of Oahu, on Molokai, in the Lihue district of Kauai, and the Hamakua and Puna districts of Hawaii.

Earthquake shocks were felt about 5 p. m. of the 10th at Honoumuli and Naalehu, Hawaii.

The following table gives the weekly averages of temperature and rainfall for the principal Islands and for the Group:

	Temperature.	Rainfall.
Hawaii.....	68.7 deg.	4.36 inches
Maui.....	69.7 deg.	1.41 inches
Oahu.....	72.8 deg.	0.92 inch
Kauai.....	70.7 deg.	0.82 inch
Molokai.....	70.0 deg.	0.74 inch

Entire Group.. 70.2 deg. 2.40 inches
At the local office of the United States Weather Bureau in Honolulu generally partly cloudy weather obtained, with traces of rainfall on three dates and measurable amounts on four totaling 0.19 inch, 0.44 less than the normal for the week, and 0.06 more than during the preceding week. The maximum temperature was 78 deg., minimum 66 deg., and mean 71.8 deg., 0.9 deg. lower than the weekly normal, and the same as last week's. The mean daily relative humidity varied from 62 per cent to 72 per cent,

and the mean for the week was 66.6 per cent. Northeasterly winds prevailed on each day of the week, with high average hourly velocities during the first four days and moderate velocities the remaining three, while the mean hourly velocity for the week was 10.6 miles. The mean daily barometer ranged from 30.10 to 30.16 inches, and the mean for the week, 30.13, was 0.11 inch above normal.

CHRISTOBEL PANKHURST ELUDES SCOTLAND YARD.

NEW YORK, April 4.—Christobel Pankhurst, who with her mother leads the militant English suffragettes, and for whom Scotland Yard has been searching since the night of March 6th with a warrant for her arrest on a charge of conspiracy, arrived here on the Cunard liner Mauretania on Friday, March 30th, under an assumed name. It was learned today, and is now in hiding in this city.

It is understood that she had a conference with her younger sister, Miss Sylvia, on Tuesday night before the latter sailed for England on the Mauretania.

Sylvia Pankhurst, it is thought, supplied her sister with funds from the money she made from her lecture tour in this country, and returned to London to help direct the suffrage fight there.

THE WORKING GRADE.

"Fifth grade this year, Tommy?"
"Yes, sir."
"You're in decimals or fractions now no doubt?"
"No, sir, I'm in crochet work and clay modeling now."—Pittsburg Post.
